Adult ED Asthma Visits by Race

##### About This Measure

The three-year average crude rate of adult Asthma Emergency Department visits for the white population, expressed as an area-level rate. This rate is compared to the statewide crude rate (of all races) and expressed per 10,000 population.

Reporting date range: 2009-01-01 - 2011-12-31

#### Select a measure:

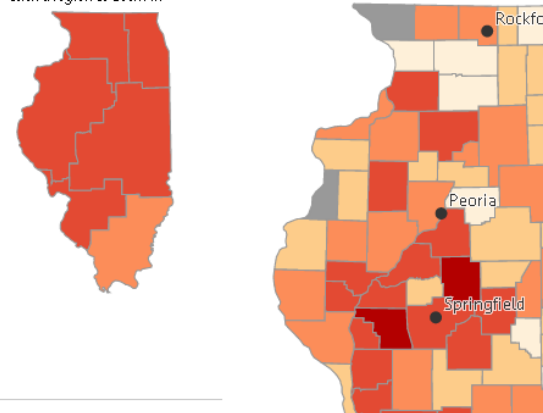

Emergency Department Asthma Visit Rate: White

Emergency Department Asthma Visit Rate: White

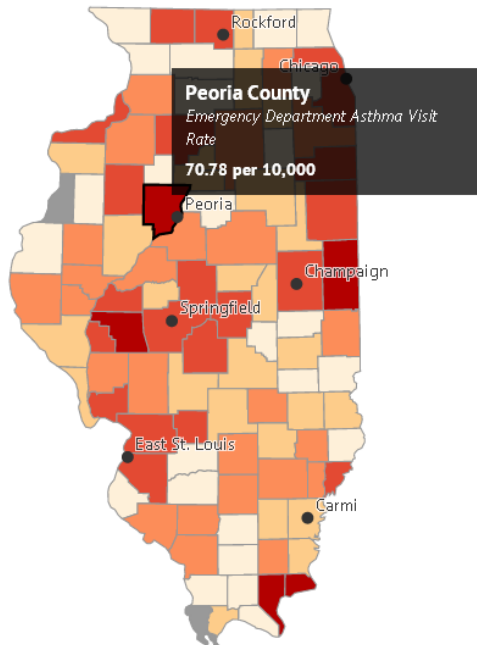

Emergency Department Asthma Visit Rate: Black

Emergency Department Asthma Visit Rate: Hispanic

Click a region to zoom in

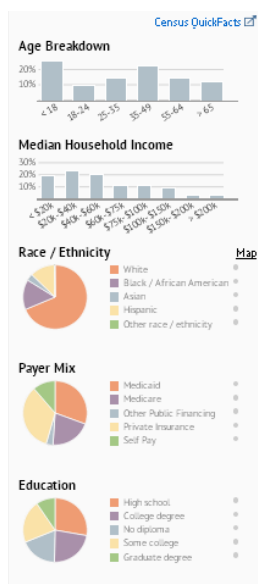

Hover over any county to get the measure results for that county. Notice that higher rates for a given measure are displayed as a darker color.

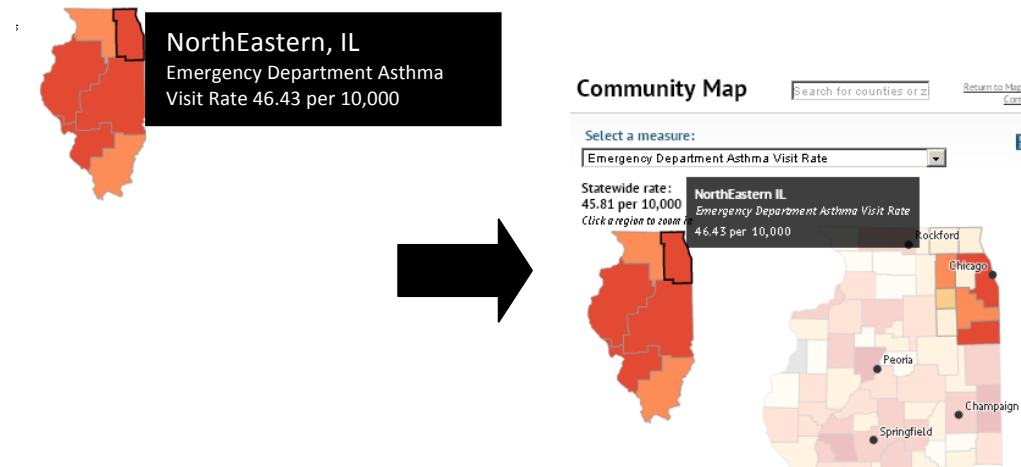

Demographic information is provided on the right hand side of the home page and includes information about age, median household income, race/ethnicity, payer mix and education. Statewide results are displayed, however if you click on a specific county, the demographics for that county will be displayed. Also note the link for “[Census Quick Facts](#)” at the top of the demographic information.

## Illinois Demographics

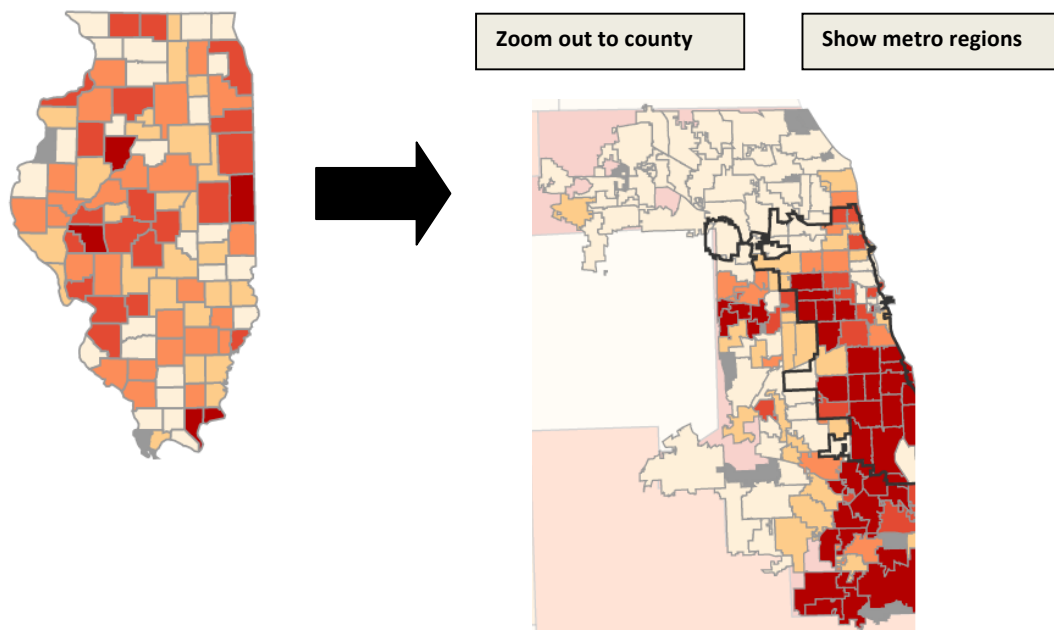

Illinois geographic information is provided for six major regions, by county, and for certain measures at the Cook County sub-region and zip code level. To view measure results for one of the six major Illinois regions, **click on a region** of choice on the small map of Illinois in the upper center of the page.

Click a region to zoom in

To view measure results for Cook County sub-regions and zip codes, first click on the NorthEastern region of the small regional map. Then click on the ***"Click to explore Cook County icon."*** Zip code level data will be displayed.

 Click to explore Cook County

To view measure results for Cook County sub-regions, click next on the “**show metro regions**” icon.
